DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George W. Jonas on November 21, 2006.

The application has been amended as follows:

Claim 1, line 5, please delete "(the cycle refresh period)".

Claim 1, line 15, please replace "the cycle" with -a-.

Claim 2, line 2, please replace "the cycle" with -a-.

Claim 4, line 5, please replace the first instance of "the" with -a-.

Claim 12, line 16, please replace the second instance of "the" with -a-.

Allowable Subject Matter

2. Claims 1-19 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1, 4 and 12 cite, among other things, synchronizing the scanning of the stripe of illumination light with the frame refresh cycle so that for each row of the display, the majority of the illumination light which impinges on the row as a result of the scan is in the last half of the cycle refresh period for the row.

The examiner was unable to find a reference or a combination of references that teach all of the limitations of the above claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The art made of record and not relied upon is considered pertinent to applicant's disclosure. The art (US 2004/0080718) is deemed relevant since it discusses illumination light impinging on the row during the first half of the frame period.
